But what is the value in also outsourcing the payroll for overseas workers to Advanced Migration Solutions, as opposed to having an internal staff member undertake this task? And can the payroll for other employees also be outsourced to Premium Migration Solutions? **YES!**

The major benefit of outsourcing this function to Advanced Migration Solutions is hassle free, 100% compliant payroll processing. Plus, by outsourcing your entire payroll function on top of the Migration Services, your business would effectively reduce costs associated with staff wages, plus additional time & cost spent on ensuring you are up to date with relevant legislation. Considering growth of staff numbers in future, savings will further increase and your business will also be providing your employees with a dedicated Customer Service point of contact for all their queries.

For Employees, payment via Advanced Migration Solutions is just as beneficial.

In addition to a dedicated Customer Service point of contact, they also benefit by receiving more dollars in their pocket. As an example, the below demonstrates the difference in pay to an employee who is living and working away from his usual place of residence. He earns \$100,000 + superannuation per annum, is married with two children and pays \$300 per week in rent.
